Education

National Institute of Technology, Manipur

Bachelor of Technology, Major in Computer Science and Engineering

November 2022 – May 2026

CGPA : 8.02

Jawahar Navodaya Vidyalaya

Secondary and Senior Secondary Education

July 2014 – June 2021

Kanpur, Uttar Pradesh

Experience

Future Netwings Solutions Pvt

Software Engineer Intern

May 2023 – July 2023

Remote

- Engineered a **data refinement process utilizing Pandas** to resolve 2,500+ missing values, eliminating over 1,000 duplicate entries, and boosting model accuracy by 5%.
- Orchestrated experiments with four **different regression models to identify the most effective approach** for laptop price prediction, achieving 82% accuracy within a two-week model iteration timeline.
- Constructed insightful **data visualizations using Matplotlib** to analyze laptop pricing, uncovering 3 key features influencing prices and enhancing model prediction accuracy by 4%.

Projects

Banking Application | Java, Spring Boot, Hibernate

[Live Demo](#)

- Developed secure **JWT-based authentication and authorization** with role-based access control, leveraging **BCrypt** for password hashing and custom filters for token validation.
- Ensured **ACID-compliant transactions** by implementing **pessimistic locking with JPA/Hibernate**, and ensured data consistency using **Spring Transactional** management.
- Automated **monthly processes** such as interest credit, fee deduction, and penalty calculation using **Spring CRON scheduling** set to run at 2 AM on the 2nd of every month.

Resume Builder | React, Redux, Node, Express, Clerk

[Live Demo](#)

- Designed and facilitated the creation of a **responsive resume builder** featuring a **live preview**, increasing user engagement by 45% through enhanced UI/UX.
- Implemented intuitive navigation using **React Router DOM** and **Context API**, ensuring seamless handling of thousands of daily interactions.
- Demonstrated and reinforced full-stack implementation of secure, scalable features, incorporating **Clerk for authentication** and **Appwrite API** for optimized data handling.

Coding Profile

- 4-star rating** on [GeeksforGeeks](#), achieving a **Contest Rating of 1857**.
- Solved **700+ data structures and algorithms problems** across [LeetCode](#) and GeeksforGeeks.
- 3-star rating** on [CodeChef](#), reaching a peak **rating of 1642**.

Achievements

- 1st place in a National Hackathon:** Built an agricultural analytics platform using **CNN, ML, and IoT**. ([Link](#))
- Achieved National Semi-Finalist** position in Flipkart GRiD 7.0 (2025). ([Certificate](#))
- Smart India Hackathon, Finalist 2023:** Developed a drug formulation forecasting platform. ([Link](#))
- Awarded **1st place in Competitive Programming** and **2nd place in Hackathon** at Tech Fest of IIIT Manipur. ([Link](#))

Position of Responsibility

- Training and Placement Coordinator (2026 Batch):** Facilitated placement drives and maintained communication between students and recruiting companies at NIT Manipur.
- Tech Lead & Core Member, CYGNUS Club:** Conducted hands-on IoT and software development sessions, fostering a practical learning environment at NIT Manipur.

Technical Skills

Languages/Tools: Java, Python, C, JavaScript, SQL, Git, Docker, VS Code, Postman

Libraries: pandas, NumPy, Matplotlib, React, Hibernate (JPA)

Technologies/Frameworks: HTML5, CSS3, Tailwind CSS, MongoDB, Express, NodeJS, Rest APIs, Spring Boot

Relevant Coursework: Object-Oriented Programming, Database Management, Computer Networks, Operating Systems
